

# DANGER

GEFAHR  
危険

## Sheer drop-off and slippery rocks

A sheer drop-off and slippery rocks combine to make this site dangerous. Serious injury and death have occurred here from slipping and falling.

- Stay away from the cliff edge and waterfall drop-off.
- Take care on rocks—they are slippery.

### Take extreme care

During and after heavy rain, creek conditions can change and become even more dangerous. Fast flowing water with strong currents can occur. **To stay safe, do not enter the water.**
